## About us

We at Madhav Masala maintain the legacy, purity & quality to serve you the best of blended, grounded & assorted masalas. Our masalas help you in enhancing the flavour & bringing authenticity to your dishes.

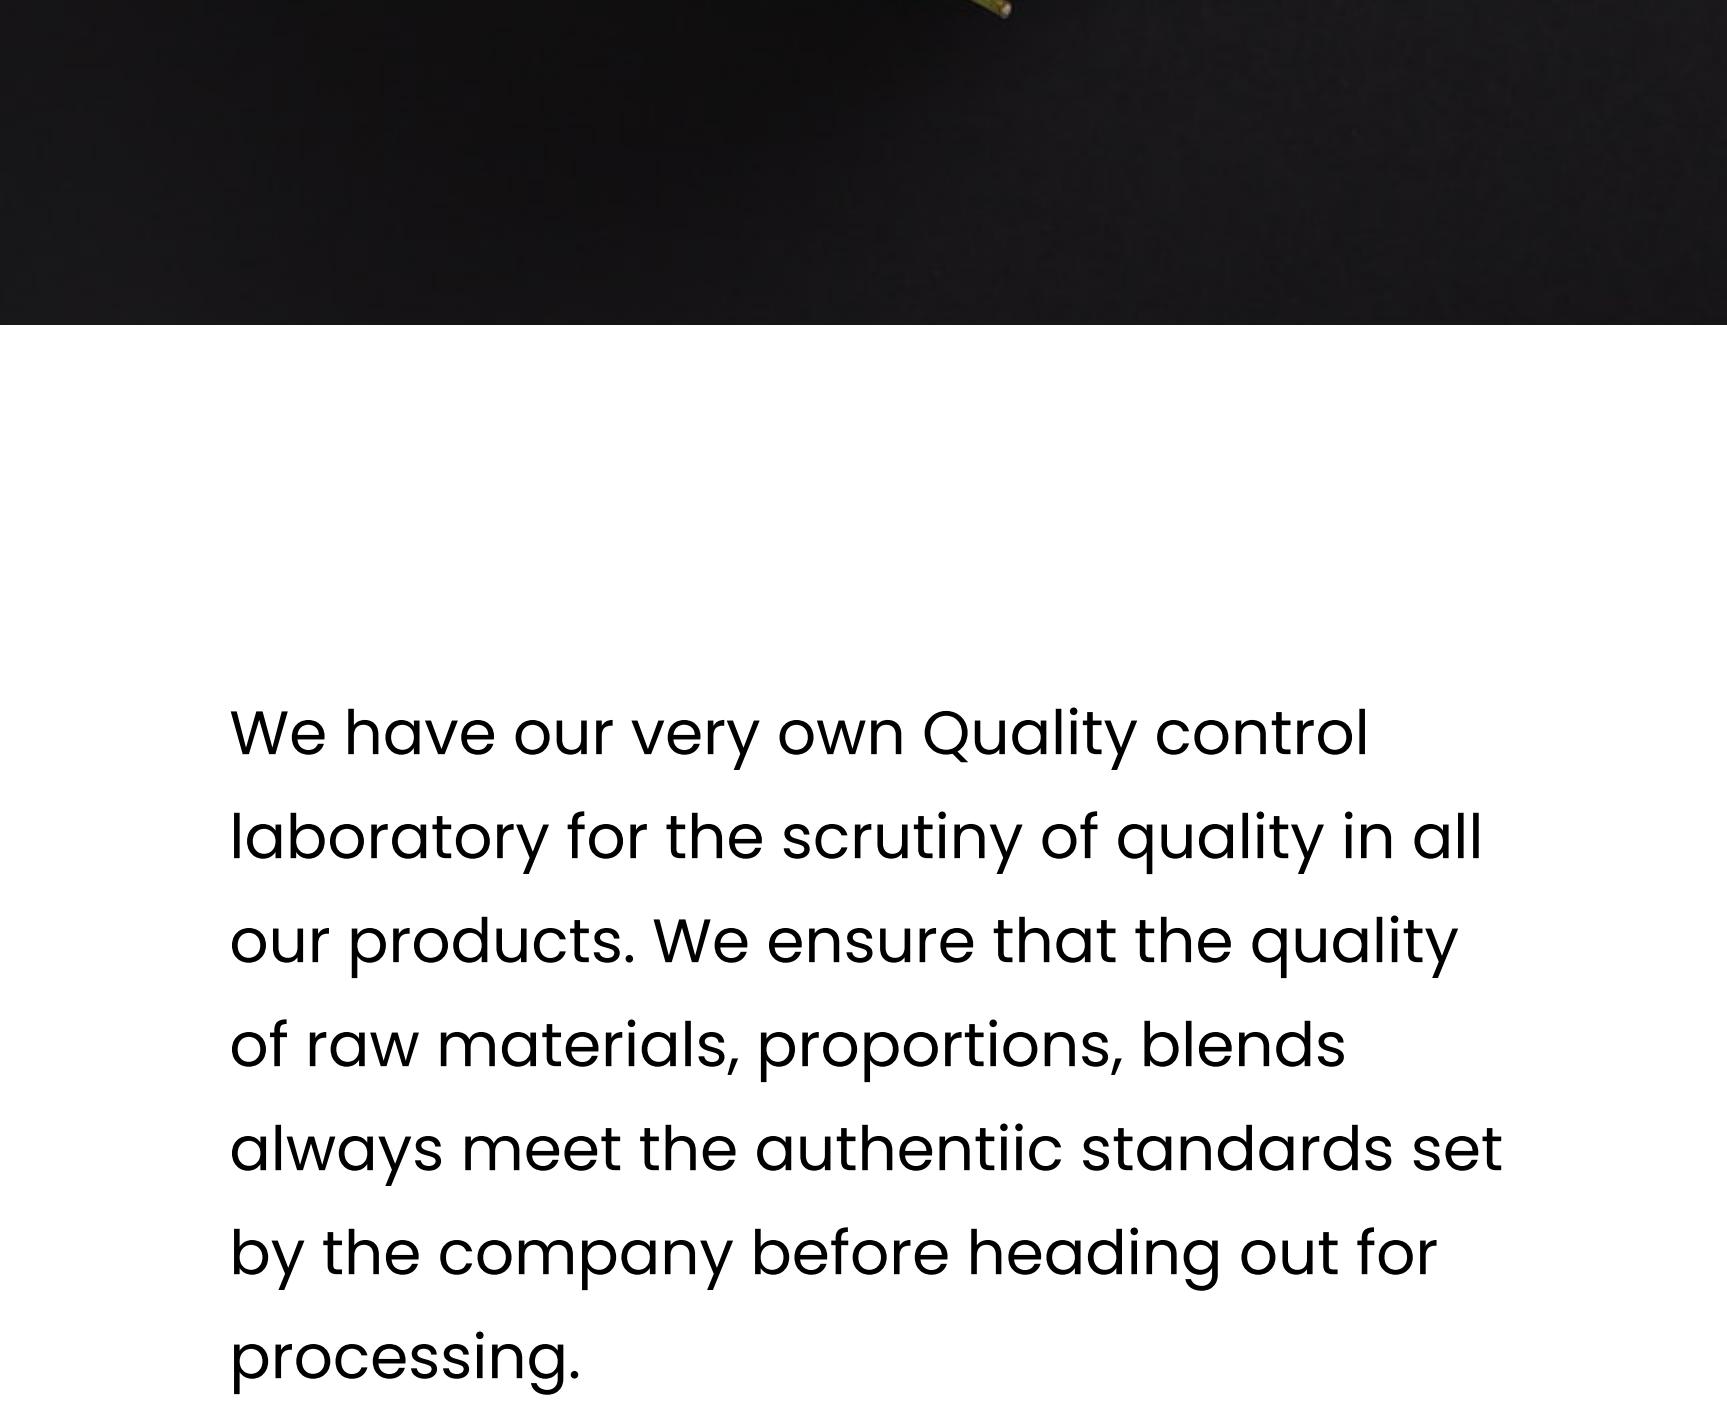

Our emphasis has always been on "A" Grade quality raw materials that are meticulously inspected and procured from the country's best fields. The cleaning, roasting, and blending is carried out in a fully automated plant.

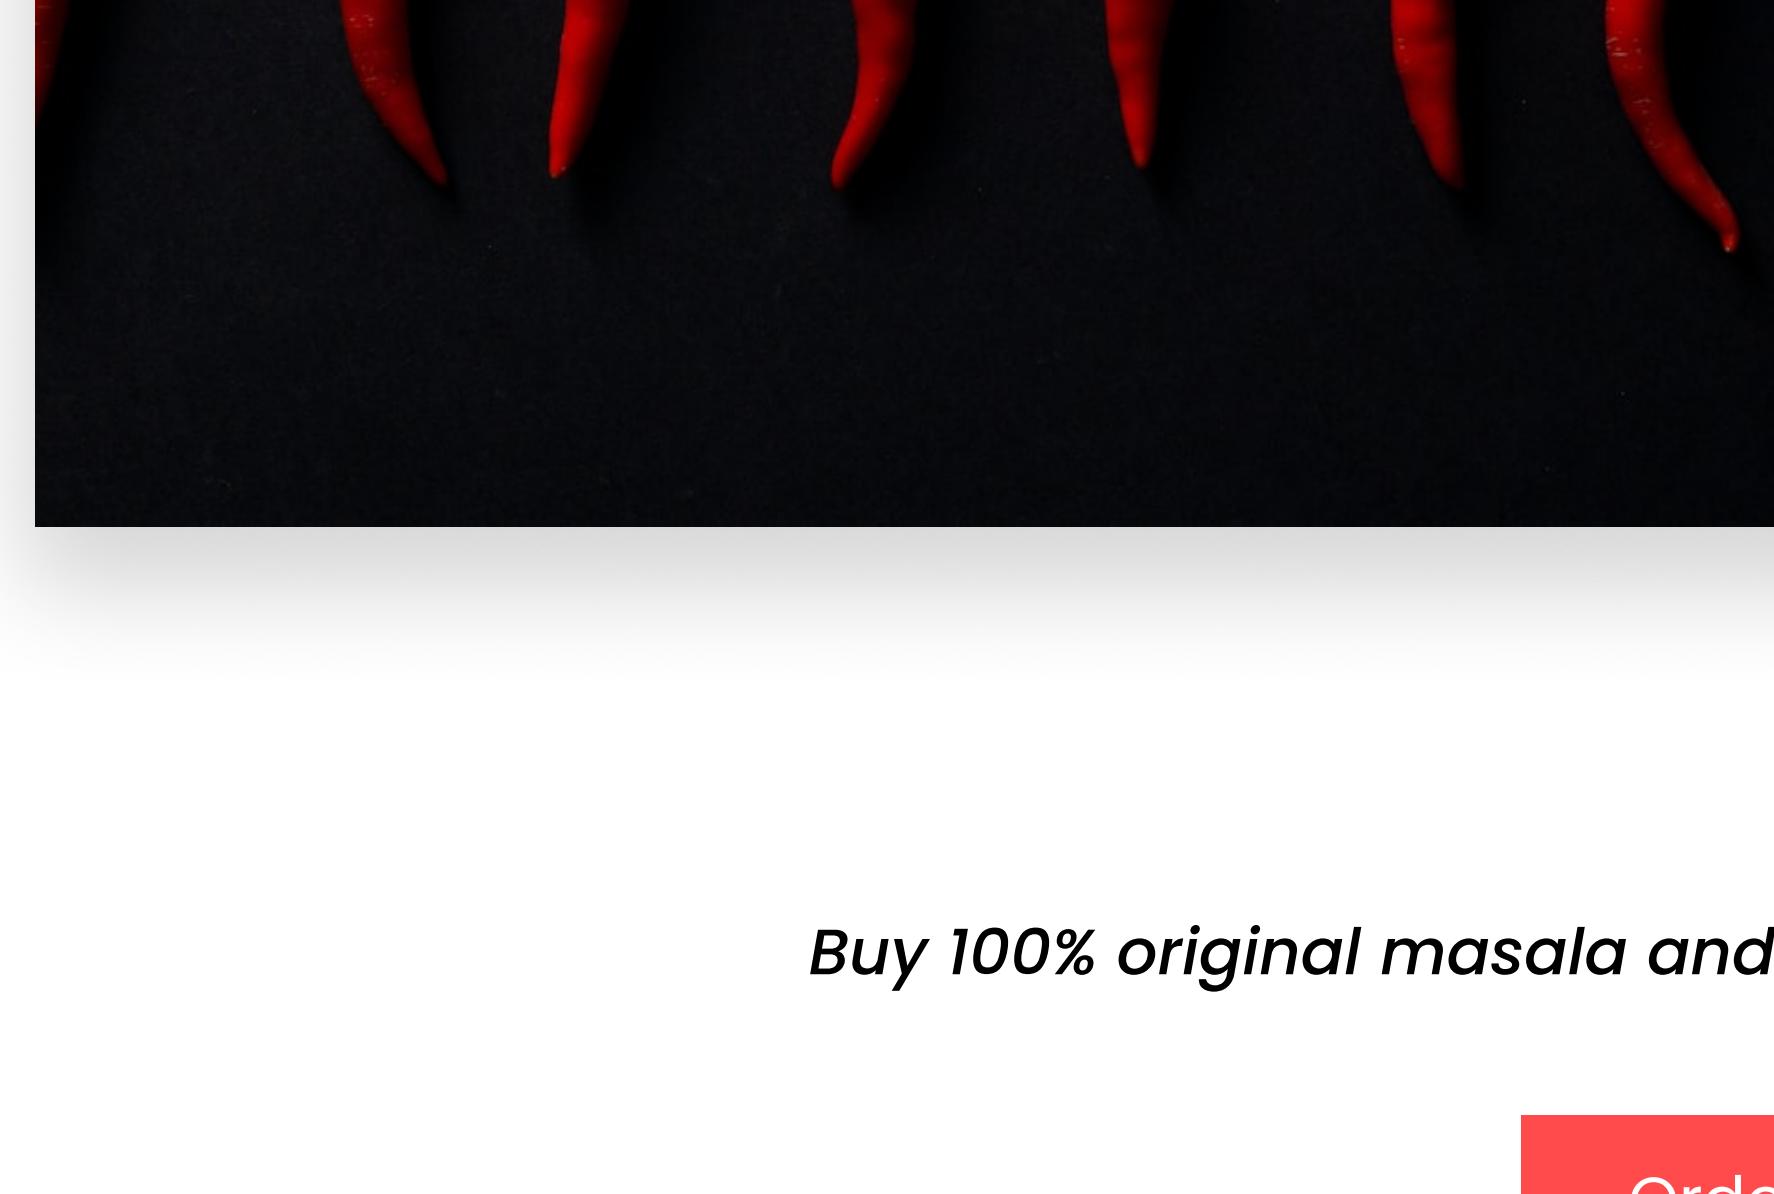

### Quality

As all spices are organic, food fungus tends to set into them easily.

The spice powders are desiccated, dehumidified and dried by heavy dehumidifying machinery and then put into air and water tight plastic bags after being carefully weighed.

We have our very own Quality control laboratory for the scrutiny of quality in all our products. We ensure that the quality of raw materials, proportions, blends always meet the authentic standards set by the company before heading out for processing.

Buy 100% original masala and spices online from Madhav Masala.
